PROGRAMMA

Curriculum Vitae

DR. HABIL. SALVATORE ALONGE, DVM, PHD
SPECIALIST IN ANIMAL HEALTH, BREEDING AND ANIMAL PRODUCTION
SPECIALIST IN PHYSIOPATHOLOGY OF THE REPRODUCTION IN DOMESTIC ANIMALS

Graduated in 2012 at the Faculty of Veterinary Medicine, University of Milan, Italy, he gets his PhD degree in 2016 defending a thesis titled: "Ultrasonographic features of the canine pregnancy with special reference to fetal development and health."

In 2018, he was appointed Specialist in Physiopathology of the Reproduction of Domestic Animals by the University of Bari, Italy, discussing a thesis titled: "Advances in prostatic diagnostics in dogs" with final score 50/50 *cum laude*.

In October 2018 he concluded the Residency program at the University of Milan, achieving the eligibility to apply to the European College of Animal Reproduction (ECAR) final exam.

In 2021, he got the scientific habilitation for the Sector 07/H5 SSD VET 10 - Clinical Veterinary Obstetrics and Gynecology.

In 2021, he was appointed Specialist in Animal Health, Breeding and Animal Production by the University of Camerino, Italy, discussing a thesis titled: "The use of Pre and Probiotics during pregnancy to increase the immune properties of colostrum".

From 2015, he is the founding partner of Società Veterinaria "Il Melograno" srl, a company for veterinary services, and practitioner in the Veterinary Clinic "Il Melograno", in Sesto Calende (VA). His main interests are reproduction and soft tissue surgery in small animals.

Since 2020, he works like Official Veterinarian in ASL VCO – Regione Piemonte. His main interests are animal health and welfare laws, especially for small animals management and breeding. He is member of the Regione Piemonte committee for Companion Animals.

He is member of the main international scientific societies in his fields of interest.

Dr. Alonge published several papers in international peer-reviewed journals and presented the results of his research at international American and European conferences.

Dr. Alonge is actually involved in the Reviewers Committee of several national and international peer-reviewed scientific journals indexed in SCOPUS / Elsevier and Web of Science / Clarivate Analytics.

DR. HABIL. MONICA MELANDRI, DVM
SPECIALIST IN ANIMAL HEALTH, BREEDING AND ANIMAL PRODUCTION
SPECIALIST IN PATHOLOGY AND CLINICS OF COMPANION ANIMALS

Graduated in 2015 at the Faculty of Veterinary Medicine, University of Milan, Italy, with final score 110/110 *cum laude* defending a thesis titled: "Echocardiography in growing Great Danes: reference parameters".

In 2018, he was appointed Specialist in Pathology and Clinics of Companion Animals by the University of Milan, Italy, discussing a thesis titled: "Evaluation of the APGAR score after the use of Alfaxalone at Caesarean Section in the Dog" with final score 70/70.

In February 2020, she concluded the Residency program at the University of Milan, achieving the eligibility to apply to the European College of Animal Reproduction (ECAR) final exam.

In 2021, she got the scientific habilitation for the Sector 07/H5 SSD VET 10 - Clinical Veterinary Obstetrics and Gynecology.

In 2021, she was appointed Specialist in Animal Health, Breeding and Animal Production by the University of Camerino, Italy, discussing the thesis titled: "Effect of the Maternal Administration of Pre- and Probiotics during Pregnancy on the Gastroenteric Performances of puppies".

From 2015, she is the founding partner of Società Veterinaria "Il Melograno" srl, a company for veterinary services, and practitioner in the Veterinary Clinic "Il Melograno", in Sesto Calende (VA). Her main interests are reproduction, internal medicine and anaesthesia in small animals.
